Please help us support this wonderful organization that provides so much for families in need.

“Community Action Partnership of Orange County Food Bank distributes 17 million pounds of food annually. In addition to the 24,000 people that the Food Bank serves directly each month, it provides food and personal care items to 300 non-profit service organizations, such as social service agencies, churches, shelters, soup kitchens and senior centers. These organizations serve the homeless, disabled persons, seniors on fixed incomes, the unemployed and the working poor.”
